

Sixteen years ago I was refused mission workers  
licence because the Supt. didnt think I would ever do the  
church any good. They turned me down for preachers liscen  
ce because I was too ignorant, and at that time they had  
preacherd in there who couldnt read. My I must have been  
dumb. After sixteen years I am ass. Supt of the Conference  
and got the Supt worried for fear I might get his job.  
I started out to preach, without a coat to wear, and had  
a mother and four small sisters to support. I let the  
farm grow up in weeds, eat corn bread and butts meat, walk  
the road, preached in school houses, and brush harbors  
Finally went off to school, and spent seven years in  
college and borrowed only 35 dollard through it all.  
Today I am pastoring the finest church in the movement  
Have almost four hundred in sunday school, nearly two  
hundred members and I'm just beginning to fight.
